DEPRESS STOCKS AT THE OPENING

Government Suit Against Pacific and Mexican Situation Are Disquieting.

HEAVINESS IN WHOLE LIST

Amalgamated Copper Drops Below 70, and London Houses Buy Heavily on Balance.

BY BROADWAY WALL.

New York, October 14.—Stocks were depressed at the opening of to-day's market. London sent irregular prices for American shares, and selling orders appeared for Paris account in Southern Pacific.

Southern Pacific Weak.

Southern Pacific has been referred to by commission houses as one of the best of the 5 per cent stocks, with the result that brokers are carrying on their books a larger proportion of this issue for speculative account than probably any other stock on the floor.

Whole List is Heavy.

For a time the whole list showed heaviness. American bonds, on the other hand, were in demand. The carrying over of the stock has sold since it began paying 4 per cent in 1903. It should be borne in mind that nothing has developed in recent days that casts any doubt upon the ability of the company to continue the present rate of dividends.

Copper Drops Below 70.

Amalgamated copper dropped below 70, although the carrying over demand for the metal at 14 3/4 cents a pound. London houses bought some 15,000 shares on balance, taking steel and United Pacific. The carrying over charge on American stocks was reported from London at a 1 1/4 per cent, against a 1 1/2 per cent at the previous session.

Government Bonds Advance Point.

Government bonds sold over the counter at 95 1/2 for the 2 1/2. This advance of one point over the level of last week was attributed to the resounding statement given out by the Secretary of the Treasury to the effect that the government had no intention whatever of cutting the rate of interest on the 2 1/2 per cent bonds, and that it was prepared to put up additional collateral as security for circulation to cover the decline in the 2 per cent bonds.

Traffic Returns Favorable.

Traffic conditions for the week of October were favorable. Southern Railway increased \$1,000, Chesapeake and Potomac \$2,000, Grand Trunk \$2,000, and Southern \$2,000.

Local Returns Favorable.

Local returns for the week of October were favorable. Southern Railway increased \$1,000, Chesapeake and Potomac \$2,000, Grand Trunk \$2,000, and Southern \$2,000.
